(charged according to the operator's tariff)

## GENERAL TERMS AND CONDITIONS OF ADDITIONAL GROUP INSURANCE IN THE CASE OF SURGICAL OPERATIONS OF THE INSURED PERSON

GTC code: OLGP55

The Board of Directors of PZU Życie SA set out the general terms and conditions of the additional group insurance in case of surgical operations of the insured Plu by means of Resolution No. UZ/202/2021 of 9 November 2021 (hereinafter referred to as the GTC).

These General Terms and Conditions shall enter into force on 01 December 2021 and shall apply to insurance agreements concluded from 1 January 2022.

The policyholder shall read the GTC carefully before concluding the contract and communicate the GTC to anyone who wishes to take out insurance.

**Please read the GTC you have received from your policyholder carefully before you take out insurance.**

### GLOSSARY

– i.e. what do the terms actually mean

1. the GTC uses the following terminology:

- 1) **additional group insurance in case of surgical interventions of the insured** – additional insurance in the event of severe illness of the insured indicated by PZU Życie SA in the agreement;
- 2) **malignant neoplasm** – which is an uncontrolled proliferation of cancer cells characterised by their ability to infiltrate and destroy tissues and form distant metastases. We are only responsible for such malignant tumours, the invasive nature of which has been confirmed by histopathological examination. We are also responsible for disseminated malignant disease with metastatic lesions when material has not been taken for histopathological examination, but the clinical picture and diagnostic tests are unequivocal as to the malignancy of the neoplastic process. Our insurance coverage in this insurance does not cover:
  - a) tumours assessed by histopathology as benign, of borderline malignancy, potentially low malignancy, non-invasive or pre-invasive (so-called in situ),
  - b) dysplasia-like lesions,
  - c) malignant granulomatosis in the first stage,
  - d) malignant melanoma of the skin described according to the TNM scale as T1aNO0 and all skin cancers including cutaneous lymphoma,
  - e) papillary thyroid carcinoma described according to TNM scale as T1aNO0,
  - f) malignant neoplasm of the prostate gland (prostate, steroid) described according to the TNM scale as T1aNO0 or T1bNO0,
  - g) dysplasia of the malignant neoplasm of the cervix described according to the CIN scale as CIN1, CIN2 or CIN3,
  - h) AIDS-related cancer and HIV infection;
- 3) **insurance protection period** – the period of time during which our liability to the insured under the supplementary insurance continues;
- 4) **a surgical operation during a hospital stay** – a surgical operation carried out during a hospital stay which lasted continuously for more than 14 days;
- 5) **surgical operation under general anaesthesia** – surgical operation under general anaesthesia, defined as a type of anaesthesia in which all organs and tissues are subjected to the effects of anaesthetics, with reversible complete unconsciousness and the need for endotracheal intubation for mechanical ventilation of the lungs;
- 6) **surgical operation related to a heart attack or brain aneurysm or malignant tumour** – surgical operation necessitated by a heart attack or brain aneurysm or malignant neoplasm and performed within 6 months of the date of diagnosis of the heart attack or brain aneurysm or malignant neoplasm respectively;
- 7) **hospital** – an inpatient treatment facility intended to provide inpatient health care;
- 8) **cerebral aneurysm** – such a brain aneurysm, which is a pathological intracranial dilatation of the cerebral vessels;
- 9) **supplementary insurance** – the insurance agreement to which these GTC apply;
- 10) **basic insurance** – PZU Na Życie Plus group insurance agreement, to which the policyholder has the right to take out additional insurance;
- 11) **heart attack** – which is the damage to part of the heart muscle as a result of acute ischaemia. We are only liable for such a myocardial infarction whose the diagnosis is confirmed by an increase or decrease in cardiac troponin levels, with at least one value above normal, and if at least one of the following criteria is met:
  - a) clinical signs of myocardial ischaemia,
  - b) new ischaemic changes in the ECG,
  - c) new loss of viable myocardium on imaging studies or new regional systolic dysfunction, the location of which is consistent with an ischaemic aetiology,

- d) a thrombus in the coronary artery discovered through coronary angiography;
- 12) **lesion** – a pathological proliferation of cells of a given tissue, organ or system.
- 2. Other terms that we use in these GTC are defined in the general terms and conditions of basic insurance and supplementary group insurance in case of surgical interventions – we use these terms in the same sense.

## OBJECT OF INSURANCE

– what do we insure

- 3. We insure your health.

## SCOPE OF INSURANCE AND THE BENEFIT AMOUNT

– which events do we pay for and what amounts

- 4. The scope of supplementary insurance covers only surgical operations which meet the following conditions:
  - 1) they are carried out during the protection period;
  - 2) they are listed in the List of Surgical Operations attached to this supplementary insurance;
  - 3) they are:
    - a) surgical operations under general anaesthesia or
    - b) surgical operations during a hospital stay or
    - c) surgical operations related to a heart attack or brain aneurysm or malignant tumour
 – at the discretion of the policyholder.
- 5. Our cover extends to the performance of surgical operations indicated in item 4, in the countries of the European Union or in Australia, Iceland, Japan, Canada, Monaco, Norway, New Zealand, the United States of America, Switzerland, the Vatican, the United Kingdom, if the cover selected by the policyholder includes the performance of surgical operations in these countries.
- 6. We confirm the scope of supplementary insurance in the policy and in the individual confirmation of insurance.
- 7. If the scope of the supplementary insurance covers the performance of surgical operations in the countries listed in point 5, we also extend the cover in the supplementary group insurance for surgical operations of the insured person to include operations performed in these countries.
- 8. If you undergo a surgical operation that meets the conditions set out in item 4, we will pay a percentage of the sum insured. It is stated in the policy and in the individual insurance confirmation.
- 9. We determine the amount of the benefit based on the sum insured applicable at the date of the surgery.

## EXCLUSIONS OF PROTECTION

– i.e. cases in which you are not eligible for a benefit

- 10. For the purposes of defining our exclusions of protection, we use the term **competitive sports** – meaning the practice of sports by:
  - 1) members of the personnel of clubs who take part in professional, national or international competitions. These competitions must be organised by: the sports federation or professional sports federation responsible for the sport in question – or
  - 2) individuals who play individual sports and participate in professional, national or international competitions. These competitions must be organised by: the sports federation or professional sports federation responsible for the sport in question – or
  - 3) persons who receive remuneration, as well as scholarships or reimbursement of expenses related to the practice of individual sports or team games (per diems, allowances) – on the basis of an employment contract or a civil law contract.
- 11. Our liability does not extend to the surgical intervention the need for which occurred due to:
  - 1) war operations;
  - 2) disasters that cause radioactive, chemical or biological contamination;
  - 3) as a result of active participation of the insured in the acts of terror or mass social unrest;
  - 4) as a result of the commission or attempted commission by the insured of an act which fulfils the requirements of an intentional crime;
  - 5) as a result of a traffic accident while the insured was driving a vehicle:
    - a) without holding the authority to drive as defined by the law,
    - b) being under the influence of alcohol or in a state of intoxication as defined by the regulations on education in sobriety and counteracting alcoholism or after using: drugs, narcotics, psychotropic substances or substitutes within the meaning of the provisions on counteracting drug addiction,
 – insofar as any of these circumstances played a role in the traffic accident;
  - 6) when the Insured was intoxicated within the meaning of regulations on upbringing in sobriety and counteracting alcoholism or after using: drugs, narcotics, psychotropic substances or substitutes within the meaning of regulations on counteracting drug addiction – if any of these circumstances influenced the necessary to perform a surgery;
  - 7) as a result of the insured's self-harm or attempted suicide;
  - 8) directly as a result of intoxication by alcohol, drugs, narcotics, psycho-tropic substances or substitutes – within the meaning of the regulations on counteracting drug addiction;
  - 9) as a result of the use of medicinal products by the insured not in accordance with the doctor's recommendation or not in accordance with the information in the leaflet accompanying the medicinal product;

- 10) in result of bodily injuries caused by medical treatment and therapeutic or diagnostic procedures, regardless of who they were performed by – unless it was to treat the direct consequences of an accident;
- 11) due to the involvement of the insured in competitive sport or recreational combat sports, motor and motorboat motor-sports, air sports, rock or mountain climbing (construed as any climbing practised at an altitude exceeding 2,000 metres above sea level), caving, diving with specialised equipment for underwater breathing, water jumping, bungee jumping.
12. Our liability does not cover surgical interventions:
  - 1) which were not medically necessary to cure or reduce the symptoms of an illness or to reduce the effects of an accident;
  - 2) in which the insured person was an organ donor;
  - 3) performed for cosmetic or aesthetic purposes with the exception of an operation necessary for the removal of the implications:
    - a) a personal accident which occurs during our period of cover or
    - b) malignant tumour diagnosed during the period of our protection;
  - 4) performed for contraceptive purposes;
  - 5) performed to reduce or enlarge breasts or change sex;
  - 6) in the field of maxillofacial surgery – with the exception of surgery required to treat the implications of:
    - a) a personal accident which occurs during our period of our cover,
    - b) malignant tumour diagnosed during the period of our protection;
  - 7) performed for diagnostic purposes;
  - 8) removal of a foreign body by endoscopic means;
  - 9) replacement of a permanently implanted device, artificial organ or part of an artificial organ;
  - 10) if it was a subsequent surgical operation on the same organ and was causally related to the first operation performed to treat the same medical condition or the effects of the same accident (reoperation).

## **PROTECTION RESTRICTIONS**

– i.e. cases in which we limit the payment of a benefit

13. If you undergo more than one surgical operation under general anaesthesia within a period of 60 days – commencing from the date of the first surgical operation within that period – we will only pay a benefit for one surgical operation – for which the highest payment is payable.
14. If you undergo more than one surgical operation under general anaesthesia within a period of 60 days – commencing from the date of the first surgical operation within that period – we will only pay a benefit for one surgical operation.
15. if you undergo more than one surgical operation relating to a heart attack or cerebral aneurysm or malignant tumour within a period of 60 days – commencing from the date of your first surgical operation during that period – we will only pay a benefit for one such surgical operation.

## **GRACE PERIOD**

– the period of the lack of or limited liability of the insurance company after you have taken out supplementary insurance

16. We are not liable for the first 180 days counted from the moment you join the supplementary insurance.
17. We are liable if the surgical operation was caused by an accident that occurred within the first 180 days counted from your joining the supplementary insurance.

## **SUM INSURED**

– what is it, and where is it indicated

18. The sum insured is the amount which we use as the basis for determining the benefit due.
19. The amount of the sum insured can be included in the policy and in the individual confirmation of insurance.
20. The sum insured does not change throughout the duration of the agreement. The sum insured is fixed, but may be changed by mutual agreement.

## **PREMIUM**

– what does it depend on and when to pay it

21. Amount of the premium per the insured:
  - 1) takes into account the grace periods that apply in supplementary insurance;
  - 2) it is fixed, but may be changed by mutual agreement;
  - 3) it depends on:
    - a) the sum insured,
    - b) insurance coverage,
    - c) benefit amount,
    - d) the number, age structure and gender of those who take out insurance, as well as the type of work they do.

- 22. The amount of the premium applicable to the additional insurance agreement is specified in the application for conclusion of the agreement as well as in the policy.
- 23. The policyholder pays us the premiums for the supplementary insurance on a monthly basis, together with the premium for the primary insurance.

#### **TAKING OUT AND JOINING SUPPLEMENTARY INSURANCE**

– i.e., how do we insure you

- 24. Supplementary insurance may be taken out either with or during the conclusion of the basic insurance or during its duration, provided that an additional group insurance contract for a surgery of the insured is concluded or in force at the same time.
- 25. The additional insurance may be joined by insured persons who joined the basic insurance and the additional group insurance in the event of a surgery of the insured.

#### **DURATION OF SUPPLEMENTARY INSURANCE**

– i.e., which period we take out the supplementary insurance for

- 26. The policyholder may take out supplementary insurance with us for a limited period. We confirm the duration of the additional insurance in the policy. If the insurance is taken out between policy anniversaries, our cover continues until the next policy anniversary.

#### **EXTENSION OF SUPPLEMENTARY INSURANCE**

– what are the rules for extending supplementary insurance

- 27. Unless otherwise agreed by either party to the agreement and provided that the basic insurance and the additional group insurance for the surgical treatment of the insured are in force, the additional insurance is extended for the next policy year automatically – under the same conditions. In this case, as an insured, you do not have to re-submit the declaration of membership.
- 28. Either party has the right to cancel the extension of the supplementary insurance, of which it shall notify the other party in writing. This must be done at the latest 30 days before the termination of this insurance.

#### **WITHDRAWAL FROM THE SUPPLEMENTARY INSURANCE**

– i.e. the conditions under which a policyholder may withdraw from the supplementary insurance

- 29. The cancellation of the additional insurance is carried out in accordance with the rules laid down in the basic insurance.
- 30. If the policyholder cancels the primary insurance, this results in cancellation of the secondary insurance.
- 31. If the policyholder withdraws from the additional insurance, this does not result in withdrawal from the primary insurance.
- 32. If the policyholder withdraws from the additional group insurance for surgical intervention of the insured, this shall also result in the withdrawal from the additional insurance.
- 33. If the policyholder withdraws from the additional insurance, this shall not result in the withdrawal from the additional group insurance for surgical treatments of the insured.

#### **TERMINATION OF THE SUPPLEMENTARY INSURANCE**

– i.e. the manner in which the policyholder can cancel the supplementary insurance

- 34. The termination of the supplementary insurance is carried out in accordance with the rules outlined in the basic insurance.
- 35. In the event the policyholder terminates the primary insurance, this results in the termination of the secondary insurance.
- 36. If the policyholder terminates the additional insurance, this does not result in termination of the primary insurance.
- 37. If the policyholder terminates the additional group insurance for surgical treatments of the insured, this results in the termination of the additional insurance.
- 38. If the policyholder terminates the additional insurance, this does not result in the termination of the additional group insurance for surgical operations of the insured.

#### **THE BEGINNING OF OUR PROTECTION**

– when our insurance protection starts

- 39. Coverage under the supplementary insurance commences as described in the basic insurance.
- 40. Cover under the additional insurance shall only commence if the cover under the basic insurance and the additional group insurance in case of surgical interventions of the insured is in force.

## **THE CESSATION OF OUR PROTECTION**

– i.e. when the supplementary insurance ends

**41.** The cover under the supplementary insurance ceases:

- 1) on the date of termination of cover in the primary insurance or supplementary group insurance in the even of surgical treatments of the insured;
- 2) from the date on which we receive the policyholder's declaration that he or she is withdrawing from the additional insurance;
- 3) on the date of termination of cover under the supplementary insurance – if not renewed;
- 4) on the last day of the month in which you cancel the supplementary insurance;
- 5) at the end of the month of the supplementary insurance on the current terms and conditions, if you have not given the required consent to change the supplementary insurance;
- 6) as from the date of expiry of the notice period of the supplementary insurance;
- 7) as from the date on which the supplementary insurance is terminated.

## **PERSONS ENTITLED TO OBTAIN THE BENEFIT**

– the person to whom the payment is due

**42.** In such case you have the right to receive the benefit.

## **PROVISION OF THE HEALTH BENEFIT**

– when we pay the benefit

**43.** If you undergo surgery, please provide us with:

- 1) a request for payment of a benefit;
- 2) an information sheet from a medical facility that confirms that a surgical operation was performed;
- 3) documentation that a surgical operation under general anaesthesia has been carried out, if such an operation was performed;
- 4) documentation that relates to a heart attack or brain aneurysm or malignant tumour – if the surgical operation was related to the disease in question.

**44.** If the documents provided are not sufficient to consider that you are entitled to a benefit payment and in what amount, we may ask you for other necessary documents.

**45.** If the documents we have requested are in a language other than Polish, you must provide us with a Polish translation. This translation must be carried out by a sworn translator.

**46.** We decide on the payment of the benefit on the basis of the documentation provided.

## **FINAL PROVISIONS**

– what other matters are important

**47.** Any matters not regulated by the supplementary insurance shall be subject to the general terms and conditions of basic insurance, the provisions of the Civil Code, the Act on Insurance and Reinsurance Activity and any other applicable laws.

**APPENDIX**  
**TO THE GENERAL TERMS AND CONDITIONS OF ADDITIONAL GROUP INSURANCE**  
**IN THE CASE OF SURGICAL OPERATIONS OF THE INSURED PERSON PLUS**

No.	Surgical intervention
<b>Nervous system</b>	
1.	Craniotomy with removal of an epidural abscess
2.	Craniotomy with removal of an epidural hematoma
3.	Craniotomy with removal of a foreign body from the skull
4.	Craniotomy with removal of subdural hematoma
5.	Craniotomy with removal of intracerebral haematoma
6.	Drainage of intracerebral haematoma
7.	Lobotomy/tractotomy
8.	Dissection of a brain lesion
9.	Dissection of brain tissue
10.	Dissection of a cerebellar tumour
11.	Removal of cerebellar abscess
12.	Dissection of a brainstem tumour
13.	Meningeal reconstruction
14.	Closure of a meningeal fluid fistula
15.	Ventriculostomy
16.	Extracranial brain drainage
17.	Implantation of a brain stimulator
18.	Surgery for a brain aneurysm or haemangioma
19.	Decompression surgery of the spinal canal or spinal nerve root
20.	Decompression surgery of the spinal canal or spinal nerve root with stabilisation
21.	Dissection of a spinal cord lesion
22.	Dissection of a brain lesion
23.	Dissection of a peripheral nerve lesion
24.	Dissection of a cranial nerve lesion
25.	Peripheral nerve reconstruction
26.	Cranial nerve decompression
27.	Cranial nerve repair surgery
28.	Peripheral nerve repair surgery
29.	Sympathetic nerve repair surgery
30.	Implantation of a spinal cord neurostimulator
31.	Cranial nerve reconstruction
32.	Cranial nerve transplantation
33.	Subarachnoid space drainage procedure
34.	Dissection or eradication of the choroid plexus of the meninges
35.	Subarachnoid space abscess drainage procedure
36.	Ligation of the middle meningeal artery
37.	Cauterization of the choroid plexus of the meninges
38.	Ligation of the vessels of the subdural space
39.	Subdural space drainage procedure
40.	Drainage procedure of an intracranial hydrocele
41.	Meningeal decortication
42.	Dissection of a brain lesion
43.	Massive resection of brain tissue
44.	Removal of a brainstem abscess

No.	Surgical intervention
45.	Dissection of spinal cord tissue
46.	Transection of spinal cord pathways
47.	Meningeal or spinal hernia surgery
48.	Spinal subdural space drainage procedure
49.	Dissection of sural neuroma
50.	Cervical sympathectomy
51.	Lumbar sympathectomy
52.	Stereotactic ablation of brain tissue
53.	Spinal cord dissection
54.	Dissection of meninges
55.	Dura mater transplantation
<b>Endocrine system and mammary gland</b>	
56.	Partial dissection of the thyroid gland
57.	Total dissection of the thyroid gland
58.	Dissection of the thyroglossal duct
59.	Partial resection of the parathyroid glands
60.	Total dissection of the parathyroid glands
61.	Partial dissection of the adrenal glands
62.	Bilateral adrenal dissection
63.	Surgery of the pineal gland
64.	Dissection of the pituitary gland
65.	Partial dissection of the thymus
66.	Total dissection of the thymus
67.	Thoracoscopic dissection of the thymus gland
68.	Thymus transplantation
69.	Dissection of a breast lesion
70.	Subtotal mastectomy
71.	Dissection of the nipple
72.	Reconstruction or repair of the nipple
73.	Unilateral total breast dissection
74.	Bilateral total breast dissection
75.	Total simultaneous breast reconstruction
76.	Unilateral breast implant
77.	Breast skin graft
78.	Sutured breast graft
79.	Breast reconstruction with a muscle flap
80.	Breast reconstruction with a dermal-muscular flap
81.	Total bilateral simultaneous breast reconstruction
<b>Eye</b>	
82.	Dissection of the lacrimal gland
83.	Dissection of a lacrimal gland lesion
84.	Dissection of the lacrimal sac or lacrimal duct
85.	Anastomosis of the lacrimal duct to the nasal cavity
86.	Dissection of a lesion from the conjunctiva
87.	Repair surgery for conjunctival scarring
88.	Removal of conjunctival or eyelid adhesions
89.	Conjunctival reconstruction with transplantation
90.	Dissection of corneal pterygium
91.	Corneal transplantation

No.	Surgical intervention
92.	Iris incision
93.	Removal of iris adhesions
94.	Iris dissection
95.	Dissection of an iris lesion
96.	Trepanation of the sclera with complete removal of the iris
97.	Scleral fistula formation
98.	Removal of a scleral lesion
99.	Scleral hump repair
100.	Scleral reinforcement
101.	Removal of vitreous body
102.	Total removal of the oculomotor muscle
103.	Dissection of the eyeball
104.	Repair of post-traumatic damage to ocular structures
105.	Operative management of a fractured eyeball
106.	Orbital lesion dissection
107.	Osteoplasty of the orbit
108.	Removal or dissection of a ciliary body lesion
<b>Ear</b>	
109.	Total Dissection of the external ear
110.	Reconstruction of the ossicles
111.	Eardrum repair surgery
112.	Repair surgery of the mastoid process
113.	Dissection of middle ear lesion
114.	Dissection of an inner ear lesion
115.	Inner ear drainage procedure
116.	Ablation of inner ear structures
117.	Inner ear reconstruction
118.	Surgery for inner ear fistula
119.	Cochlear prosthesis implantation
120.	Lymphatic fistula formation
121.	Decompression of the vagus
<b>Respiratory system</b>	
122.	Operative stopping of nasal bleeding with arterial ligation
123.	Dissection of the internal nasal auricle (dissection by diathermy, cryotherapy, laser surgery not included )
124.	Nasal dissection
125.	Opening of the maxillary sinus
126.	Dissection of a maxillary sinus lesion
127.	Frontal sinus opening
128.	Dissection of a frontal sinus lesion
129.	Obliteration of the frontal sinus
130.	Frontal sinus dissection
131.	Opening of sieve cells
132.	Dissection of sieve cells
133.	Opening of the wedge sinus
134.	Removal of the wedge sinus
135.	Opening of multiple nasal sinuses
136.	Throat dissection
137.	Dissection of a throat lesion
138.	Throat expansion

No.	Surgical intervention
139.	Posterior nostril repair surgery
140.	Throat repair surgery after cancer removal
141.	Closure of a pharyngeal fistula
142.	Partial laryngectomy
143.	Total laryngectomy
144.	Dissection of a laryngeal lesion
145.	Laryngeal dilatation
146.	Laryngeal fistula surgery
147.	Dissection of laryngeal cartilage
148.	Laryngeal repair surgery
149.	Dissection of vocal cords
150.	Vocal prosthesis implantation
151.	Simultaneous dissection of the larynx and pharynx
152.	Laryngeal transplantation
153.	Tracheostomy (does not include temporary tracheostomy)
154.	Tracheal repair surgery
155.	Tracheal fistula surgery
156.	Total simultaneous laryngotracheal reconstruction
157.	Partial resection of the trachea
158.	Bronchial repair surgery
159.	Bronchial fistula surgery
160.	Dissection of a bronchial lesion
161.	Dissection of the airway
162.	Dissection of a lung lesion
163.	Lung dissection
164.	Lung transplantation
165.	Simultaneous lung and heart transplantation
166.	Dissection of a mediastinal lesion
167.	Sinonasal duct reconstruction
<b>Oral cavity</b>	
168.	Dissection of the tongue lesion
169.	Partial resection of the tongue
170.	Complete removal of the tongue
171.	Dissection of a salivary gland lesion
172.	Partial salivary gland dissection
173.	Total removal of the salivary gland
174.	Repair surgery of the salivary gland or salivary duct
175.	Closure of a salivary fistula
176.	Dissection of a hard palate lesion
177.	Dissection of a soft palate lesion
178.	Cleft palate correction
179.	Dissection of a lip lesion
180.	Dissection of an oral mucosal lesion
181.	Reconstruction of oral structures with grafting (does not include reconstruction of teeth and gums)
182.	Uvula dissection
183.	Dissection of a tonsillar lesion
<b>Gastrointestinal tract</b>	
184.	Partial esophagectomy
185.	Total esophagectomy

No.	Surgical intervention
186.	Mediastinal oesophageal bypass anastomosis
187.	Creation of an artificial oesophagus
188.	Intestinal formation of the oesophagus
189.	Pre-sternal oesophageal bypass anastomosis
190.	Insertion of an oesophageal endoprosthesis
191.	Suturing of an oesophageal tear
192.	Removal of oesophageal stricture
193.	Ligation of oesophageal varices
194.	Simultaneous total removal of the oesophagus and the stomach
195.	Oesophageal fistula creation
196.	Gastric fistula surgery
197.	Ligation of gastric portal varices
198.	Pyloromyotomy
199.	Pyloroplasty
200.	Partial gastrectomy
201.	Total gastrectomy
202.	Vagotomy in peptic ulcer disease
203.	Stitching up a gastric ulcer
204.	Stopping the bleeding in the stomach
205.	Stopping bleeding in the duodenum
206.	Gastric bypass anastomosis
207.	Anti-reflux surgery
208.	Suturing of a gastric tear
209.	Inversion of gastric diverticulum
210.	Dissection of the duodenum
211.	Suturing of duodenal ulcer
212.	Vagotomy in duodenal ulcer disease
213.	Duodenal bypass anastomosis
214.	Surgery for duodenal fistula
215.	Suturing of a torn duodenum
216.	Partial resection of the small bowel
217.	Total small bowel resection
218.	Small bowel bypass anastomosis
229.	Closure of small bowel fistula
220.	Small intestine colostomy
221.	Reconstruction of an intestinal fistula
222.	Suturing of a torn small bowel
223.	Intestinal diversion
224.	Drainage of intestinal indentation
225.	Affixing the small intestine
226.	Suture of the small intestine
227.	Dissection of a cyst or pilonidal sinus
228.	Caecal dissection
229.	Diaphragmatic hernia surgery
230.	Transverse colon dissection
231.	Right hemicraniectomy
232.	Left hemicraniectomy
233.	Dissection of the sigmoid colon
234.	Total intraabdominal colectomy

No.	Surgical intervention
235.	Intestinal bypass surgery
236.	Colorectal fistula surgery
237.	Multiple segmental colorectal excisions
238.	Large intestine colostomy
239.	Suture of the large intestine
240.	Affixing the large intestine
241.	Suturing of a large bowel tear
242.	Anal banding
243.	Anal fistula surgery
244.	Implantation of an artificial anal sphincter
245.	Prolapsed anus surgery
246.	Rectal dissection
247.	Suturing of a rectal tear
248.	Rectal dissection
249.	Rectal fixation
250.	Slender muscle graft
251.	Appendectomy
<b>Abdominal viscus</b>	
252.	Partial resection of the spleen
253.	Global dissection of the spleen
254.	Dissection of a splenic lesion
255.	Spleen transplantation
256.	Partial resection of the liver
257.	Global liver resection
258.	Dissection of a liver lesion
259.	Liver transplantation
260.	Endovascular hepatic vascular surgery
261.	Fixation of the liver
262.	Hepatic duct anastomosis
263.	Dissection of the gallbladder
264.	Dissection of a pancreatic lesion
265.	Cholecystostomy (creation of a gallbladder fistula)
266.	Suturing of the bile duct
267.	Biliary dissection
268.	Biliary duct anastomosis
269.	Dissection of a biliary tract lesion
270.	Plasticisation of the common bile duct
271.	Gallbladder anastomosis
272.	Dissection of the Vater papilla
273.	Dissection of the alveolar duct
274.	Pancreatic cyst fistula formation
275.	Partial resection of the pancreas
276.	Global pancreatic resection
277.	Simultaneous total resection of the pancreas and duodenum
278.	Whipple operation
279.	Pancreatic anastomosis
280.	Pancreatic duct anastomosis
<b>Heart</b>	
281.	Closed valvulotomy

No.	Surgical intervention
282.	Open valvuloplasty
283.	Aortic valve implantation
284.	Mitral valve implantation
285.	Pulmonary valve implantation
286.	Tricuspid valve implantation
287.	Valve ring repair surgery
288.	Percutaneous valvuloplasty
289.	Closure of the Botall's ductus arteriosus
290.	Atrial septal defect closure
291.	Ventricular septal defect closure
292.	Closure of cardiac septal defect
293.	Global correction of total abnormal pulmonary vein drainage
294.	Percutaneous coronary angioplasty
295.	Coronary artery bypass grafting
296.	Coronary artery aneurysm surgery
297.	Operations on the papillary muscles of the heart
298.	Heart tendon strand surgery
299.	Pericardial dissection
300.	Heart aneurysm repair surgery
301.	Dissection of a cardiac aneurysm
302.	Ventricular remodelling
303.	Surgical reduction of the heart chamber
304.	Heart transplant
305.	Implantation of an artificial heart
306.	Implantation of a mechanical heart support system
307.	Implantation of a cardiac pacing system
308.	Cardioversion / defibrillator engraftment
309.	Cardiac resynchronisation therapy (CRT) implantation
310.	Open cranioplasty
311.	Myocardial bead surgery
312.	Bypasses for cardiac revascularisation
313.	Percutaneous pulmonary artery surgery
314.	Percutaneous closure of the atrial appendage
<b>Arterial and venous vessels</b>	
315.	Carotid artery reconstruction
316.	Carotid artery bypass grafting
317.	Reconstruction of the abdominal arteries
318.	Endarterectomy of the arteries of the lower limb
329.	Dissection or anastomosis of the arteries of the lower limb
320.	Bypass of the abdominal aorta or lower limb arteries
321.	Cerebral artery aneurysm surgery
322.	Aortic repair surgery
323.	Bypass of the abdominal aorta or abdominal arteries
324.	Reconstruction of another artery
325.	Suturing the artery
326.	Reconstruction of the subclavian artery
327.	Subclavian artery bypass grafting
328.	Endovascular aortic repair surgery
329.	Endovascular repair surgery of lower limb arteries

Surgical intervention	
330.	Endovascular repair of visceral branches of the aorta
331.	Endovascular repair surgery of the cerebral artery
332.	Endovascular repair of another artery
333.	Dissection of aneurysm with anastomosis of the following veins: abdominal, iliac, portal, renal, splenic, inferior vena cava
334.	Dissection of a vascular lesion with anastomosis
335.	Carotid artery endovascular surgery
336.	Cerebral artery reconstruction
337.	Pulmonary artery reconstruction
338.	Dissection of a thoracic vascular aneurysm
339.	Dissection of a vascular lesion with an insertion
340.	Dissection of upper limb vascular aneurysm
341.	Upper limb vascular endarterectomy
342.	Abdominal vein anastomosis
Urinary system	
343.	Surgery for a kidney cyst
344.	Kidney stone removal
345.	Pielostomy
346.	Dissection or destruction of a lesion of the pyelocaliceal system
347.	Dissection or destruction of the renal lesion
348.	Thermal ablation of a renal lesion
349.	Dissection of the renal calyx
350.	Partial dissection of the kidney
351.	Global kidney dissection
352.	Bilateral simultaneous renal dissection
353.	Kidney transplantation
354.	Fixation or suspension of a hypermobile kidney
355.	Supply of traumatic kidney lesion
356.	Renal fistula surgery (does not include percutaneous fistula creation)
357.	Urinary system anastomosis
358.	Urinary system repair
359.	Removal of a clot from the urinary tract
360.	Stone evacuation from the urinary tract
361.	Complete removal of the lesion from the ureter
362.	Correction of ureteral stenosis
363.	Incision of the ureter
364.	Partial dissection of the ureter
365.	Global dissection of the ureter
366.	Surgery for ureteral fistula
367.	Reimplantation of the ureter into the bladder
368.	Intestinal ureteral insertion
369.	Fabrication of a terminal faecal fistula with ureteral implantation
370.	Reimplantation of the ureter
371.	Suturing of a ureteral wound
372.	Fixation of the ureter
373.	Surgery of a ureter affected by retroperitoneal fibrosis
374.	Extravesical anti-reflux surgery
375.	Ureteral replacement with an implant
376.	Urethral prosthesis

No.	Surgical intervention
377.	Ureteral folding
378.	Release of the ureter from adhesions
379.	Implantation of an electronic ureteral stimulator
380.	Bladder stone evacuation
381.	Bladder outlet repair surgery
382.	Bladder and urethral repair
383.	Surgical repair of bladder diverticulum
384.	Bladder outlet plication
385.	Foliation of the bladder outlet
386.	Urethral strictures correction
387.	Incision and drainage of a sterile abscess
388.	Bladder fistula surgery
389.	Dissection or destruction of a bladder lesion
390.	Dissection of a bladder diverticulum
391.	Partial dissection of the bladder
392.	Global bladder dissection
393.	Vaginal fistula surgery
394.	Fabrication of a replacement bladder
395.	Urethral repair surgery
396.	Urethral fistula surgery
397.	Urethral infolding
398.	Implantation of an artificial urethral sphincter
399.	Urethral prosthesis implantation
400.	Surgery for hypospadias
401.	Operative treatment of urinary incontinence
402.	Dissection or destruction of steroid tissue
403.	Dissection or destruction of a sterile lesion
404.	Global dissection of the prostate
405.	Dissection of a urethral lesion
406.	Dissection of a urethral diverticular
407.	Uterine fistula surgery
408.	Bladder reconstruction
409.	Bladder repair surgery
410.	Bladder anastomosis creation
411.	Implantation of an electronic bladder stimulator
412.	Partial dissection of the urethra
413.	Global dissection of the urethra
<b>Male genitalia</b>	
414.	Hydrocele testis repair
415.	Dissection of a testicular lesion
416.	Unilateral dissection of the testis
417.	Dissection of the only testicle
418.	Dissection of both testes at the same time
419.	Bringing down the testicles
420.	Testicular prosthesis
421.	Operation for varicose veins of the spermatic cord
422.	Repair surgery of the spermatic cord
423.	Transplantation of the spermatic cord
424.	Seminal vesicle surgery

No.	Surgical intervention
425.	Epididymis surgery
426.	Dissection of the epididymis
427.	Dissection of the vas deferens
428.	Dissection or destruction of the penile lesion
429.	Global penile dissection
430.	Partial penile dissection
431.	Penile prosthesis
432.	Penile reimplantation
433.	Penile repair surgery
434.	Foreskin repair surgery
435.	Scrotal dissection
<b>Female reproductive system</b>	
436.	Bartholin's gland surgery
437.	Dissection or destruction of a lesion in the recto-uterine pouch
438.	Closure of the recto-uterine pouch
439.	Dissection of a vaginal lesion
440.	Vaginal dissection
441.	Vaginal repair surgery
442.	Vaginal fistula surgery
443.	Reconstruction of the vaginal vault
444.	Dissection of a vulvar lesion
445.	Dissection of the vulva
446.	Release of vulvar adhesions
447.	Clitoral surgery
448.	Ovarian or fallopian tube surgery
449.	Bilateral dissection of the ovaries or fallopian tubes
450.	Dissection of a cervical lesion
451.	Removal of uterine myomas
452.	Global or partial dissection of the endometrial lesion
453.	Uterine septum repair surgery
454.	Removal of uterine adhesions
455.	Destruction of the endometrial lesion
456.	Suturing the uterus to the abdominal wall
457.	Suturing of a uterine tear
458.	Closure of uterine fistula
459.	Repair of postpartum uterine tear
460.	Repair of a congenital uterine defect
461.	Global or partial dissection of the uterus
462.	Operations on the uterine suspensory apparatus
<b>Skin</b>	
463.	Noninfected skin graft
464.	Engraftment of hairy skin flap
465.	Transplantation of foreign tissue into the skin
466.	Pedunculated or flap skin graft
467.	Local grafting of a subcutaneous tissue-supported skin flap
468.	Scar release surgery using a skin flap
469.	Dermo-fascial flap transplantation
470.	Insertion of an expander under the skin
471.	Mucosal transplantation

No.	Surgical intervention
<b>Soft tissues</b>	
472.	Tendon release
473.	Dissection of a lateral neck cyst
474.	Dissection of residual gill slit
475.	Dissection of a chest wall lesion with removal of a rib or ribs
476.	Lung decortication
477.	Chest wall reconstruction
478.	Thoracoplasty
479.	Diaphragm repair surgery
480.	Diaphragmatic fistula closure
481.	Suturing diaphragm
482.	Completely block dissection of lymph nodes
483.	Bilateral inguinal hernia surgery
484.	Unilateral inguinal hernia surgery
485.	Umbilical hernia surgery
486.	Unilateral femoral hernia surgery
487.	Bilateral femoral hernia surgery
488.	Surgery for abdominal wall hernia of unspecified location
489.	Hernia operation in a postoperative scar
490.	Diaphragm plication
491.	Ureteral surgery
492.	Dissection of peritoneal tissue
493.	Network repair operation
494.	Cutting out network changes
495.	Repair surgery on the mesentery of the bowel
496.	Dissection of mesenteric bowel lesion
497.	Dissection of a peritoneal lesion
498.	Release of peritoneal adhesions
499.	Lymphatic duct surgery
500.	Dissection of a tendon
501.	Dissection of a gelatinous cyst of the tendon sheath
502.	Bursa surgery
503.	Dissection of the fascia
504.	Dissection of the muscle
505.	Release of muscle spasm
506.	Tendon repair surgery
507.	Muscle repair surgery
508.	Muscle transplantation
509.	Muscle release
510.	Dissection of a lesion or tissue of the diaphragm
511.	Pleural repair procedure
512.	Operative repair of sciatic hernia
513.	Operative repair of ischio-anal hernia
514.	Lumbar hernia repair surgery
515.	Reconstructive surgery for an obturator hernia
516.	Reconstructive surgery for a mesh hernia
517.	Retroperitoneal hernia repair surgery
518.	Peritoneal repair surgery
519.	Dissection of the tendon sheath

No.	Surgical intervention
520.	Fascia repair surgery
521.	Surgery for fasciocutaneous fistula
522.	Dissection of the fascia
<b>Bones and joints of the skeleton and spine</b>	
523.	Elevation of a fractured skull fragment
524.	Restoration of cranial bone defect
525.	Open setting of a nasal bone fracture
526.	Dissection of a facial bone lesion
527.	Dissection of the facial bones
528.	Open setting of a fracture of the zygomatic bone
529.	Open setting of a fracture of the jaw
530.	Open setting of a mandibular fracture
531.	Open set of facial bones
532.	Open setting of an orbital fracture
533.	Facial bone graft
534.	Open setting of a temporomandibular joint dislocation
535.	Partial dissection of the mandible
536.	Global dissection of the mandible
537.	Intervertebral disc dissection of the spine
538.	Removal of a herniated nucleus pulposus
539.	Stiffening (arthrodesis) of the spinal joints
540.	Cervical spine decompression surgery
541.	Vertebral fracture surgery
542.	Reconstruction of multiple facial bones
543.	Reconstruction of one facial bone
544.	Dissection of a bone lesion
545.	Dissection of a bone necrosis
546.	Osteotomy without separation (excludes osteotomies in the feet and hands)
547.	Wedge osteotomy (excludes osteotomies in the feet and hands)
548.	Other osteotomy (does not include osteotomies in the feet and hands)
549.	Bone resection (excludes foot and hand resections)
550.	Closed setting of a bone fracture with internal stabilisation
551.	Open set bone fracture with internal stabilisation
552.	Closed stabilisation of the separated bone root
553.	Open stabilisation of the separated bone root
554.	Restorative treatment of poor or non-union of a bone fracture
555.	Release of the joint capsule
556.	Joint release
557.	Ligament release
558.	Open dislocation setting
559.	Dissection of the knee meniscus
560.	Hip joint stiffening (arthrodesis)
561.	Stiffening (arthrodesis) of the knee joint
562.	Shoulder joint stiffening (arthrodesis)
563.	Stiffening (arthrodesis) of the elbow joint
564.	Ligament stabilisation surgery of the knee joint
565.	Shoulder joint stabilisation surgery
566.	Suturing of the joint capsule or ligaments of the upper limb
567.	Surgery to stabilise the patella of the knee joint

No.	Surgical intervention
568.	Suturing of the joint capsule or ligaments of the lower limb
569.	Global hip replacement
570.	Partial hip replacement
571.	Carpal or metacarpal arthroplasty
572.	Metacarpophalangeal and interphalangeal arthroplasty
573.	Global wrist endoprosthesis
574.	Global endoprosthesis of the foot or toe joint
575.	Global ankle replacement
576.	Microsurgical reconstruction of vessels or nerves of the foot
577.	Finger placement
578.	Global thumb reconstruction
570.	Partial endoprosthesis of the shoulder joint
580.	Partial endoprosthesis of the elbow joint
581.	Global shoulder joint endoprosthesis
582.	Global elbow endoprosthesis
583.	Global knee replacement
584.	Global dissection of the ectopic bone
585.	Partial dissection of ectopic bone
<b>Other</b>	
586.	Thumb amputation
587.	Upper limb amputation at wrist level
588.	Carpal extrusion
589.	Amputation of the upper limb at the level of the forearm
590.	Extrusion at the elbow joint
591.	Upper limb amputation at arm's length
592.	Shoulder joint extrusion
593.	Upper limb amputation with scapula subtraction
594.	Toe amputation
595.	Amputation of the lower limb at the level of the ankle joint
596.	Extrusion in the ankle joint
597.	Lower limb amputation at lower leg level
598.	Amputation of the lower limb at knee level
599.	Extirpation in the knee joint
600.	Lower limb amputation at thigh level
601.	Hip joint replacement
602.	Lower limb amputation with part of the pelvis
603.	Thumb replantation
604.	Replantation of the upper limb at wrist level
605.	Replantation of the upper limb at shoulder height
606.	Toe replantation
607.	Replantation of the lower limb at the level of the ankle joint
608.	Replantation of the lower limb at the level of the lower leg
609.	Replantation of the lower limb at the level of the thigh
610.	Full face transplant
